

## A HISTORY OF EXCELLENCE

Since 1985, Enerquip has been designing and fabricating custom shell and tube heat exchangers for top suppliers in sanitary and industrial markets.

Our reputation for high quality and competitive lead-times have earned the trust of many top companies in a variety of industries including dairy, food and beverage, pharmaceutical, chemical, renewable energy, refining, asphalt, and more.

## OUR SPECIALTIES

- **Sizes:** Up to 48" diameter (or larger depending on weight)
- **Styles:** U-Tube, straight tube, single-pass or multi-pass configurations
- **Materials:** Carbon steel, 304L SS, 316L SS, Duplex, AL6XN, Hastelloy, and more (sanitary SS equipment is manufactured in our carbon-free facility in Medford, WI)
- **Types:** ASME, TEMA (Class B, C or R), PED, CRN

## OUR HEAT EXCHANGER SOLUTIONS

- Water-for-Injection Heaters
- Clean-in-Place Heaters
- Point-of-Use Coolers
- Preheaters
- Process Coolers
- Condensers
- Product Heaters & Coolers
- Clean Steam Generators
- Evaporators
- Utility Heaters & Coolers
- Reboilers
- Stock and Custom

## QUALITY STANDARDS

Enerquip is renowned for delivering high-quality equipment, backed by a comprehensive quality control program that spans mechanical design, fabrication, testing, and shipment preparation.

We build equipment in full compliance with:

- ASME Code
- TEMA Standard
- 3-A Sanitary Standard
- PED
- Canadian Registration (CRN)

Additionally, we can customize equipment to meet specific customer requirements, ensuring our exchangers exceed your expectations.

## DELIVERY SCHEDULES

Enerquip streamlines the design and fabrication process by drawing on past experience and a library of thousands of successful designs as a starting point.

By adding custom features during the design process, we can quickly develop approval drawings for your equipment that meet your needs.

Our in-house machining capabilities and certified welders allow us to maintain tight control over the schedule of the fabrication process, avoiding the delays normally associated with outsourcing.

For you, this results in on-time or early delivery.
